

Manage your super online

An account only takes a few minutes to set up

Registering for access to your super account is simple. Plus, it's the quickest way to get up-to-date information about your super.

Taking a 'set and forget' approach could cost you money

Having an online account and actively managing your super could help you maximise your money, giving you more to enjoy in retirement.

An online account makes managing your money easier

Just like banking, shopping and other services, managing your super online is the quick and easy way to get things done.

You can check your balance, change your investment mix, make personal contributions and much more.

Switching to an online account is better for the environment

Managing your super online not only saves paper, it reduces the greenhouse gas emissions created by sending your statements by post.
